Journal of Membrane Science 119 (1996) 313–314

journal of MEMBRANE SCIENCE

Contents

Characterisation techniques for organic foulants adsorbed onto flat-sheet UF membranes used in abattoir effluent
A. Maartens, P. Swart and E.P. Jacobs (Matieland, South Africa) 1
An enzymatic approach to the cleaning of ultrafiltration membranes fouled in abattoir effluent
A. Maartens, P. Swart and E.P. Jacobs (Matieland, South Africa) 9
Biodegradation of toluene in a membrane biofilter
M.G. Parvatiyar, R. Govind and D.F. Bishop (Cincinnati, OH, USA) 17
Retention of copper(II)–EDTA chelates from dilute aqueous solutions by a polyelectrolyte-enhanced ultrafiltration process
R.-S. Juang and M.-N. Chen (Taoyuan, Taiwan) 25
Analysis of mass transfer during ultrafiltration of PEG-6000 in a continuous stirred cell: effect of back transport
C. Bhattacharjee and S. Datta (Calcutta, India) 39
Mobility of protein through a porous membrane
J. Ennis, H. Zhang, G. Stevens, J. Perera, P. Scales and S. Carnie (Parkville, Vic., Australia) 47
The effect of $ZnCl_2$ on the formation of polysulfone membrane
S.R. Kim, K.H. Lee and M.S. Jhon (Taejeon, South Korea) 59
Cross-flow microfiltration of bentonite-in-water dispersions: Initial transient effects at low concentration
C.S. Vassilieff, T.A. Doneva and L.G. Ljutov (Sofia, Bulgaria) 65
The influence of the salt concentration and the diffusion boundary layers on the bi-ionic potential
L. Dammak, C. Larchet, B. Auclair (Créteil, France), J.A. Manzanares and S. Mafé (Burjassot, Spain) 81
Liquid membrane permeation of zinc, cadmium and nickel with 4-acyl-5-pyrazolones and β-diketones
W. Mickler, A. Reich, E. Uhlemann (Potsdam, Germany) and H.J. Bart (Kaiserslautern, Germany) 91
Comparison of membrane separation processes in the internal purification of paper mill water
J. Nuortila-Jokinen and M. Nyström (Lappeenranta, Finland) 99
Performance optimization of hollow fiber reverse osmosis membranes. Part II. Comparative study of flow configurations
J. Smart (Austin, TX, USA), V.M. Starov (Moscow, Russian Federation) and D.R. Lloyd (Austin, TX, USA) 117
Estimating diffusion through flake-filled membranes
W.R. Falla, M. Mulski and E.L. Cussler (Minneapolis, MN, USA) 129
Removal of water vapor and VOCs from nitrogen in a hydrophilic hollow fiber gel membrane permeator
J.S. Cha, R. Li and K.K. Sirkar (Newark, NJ, USA) 139

Rapid communications
Sulfonated polyphosphazene ion-exchange membranes
R. Wycisk and P.N. Pintauro (New Orleans, LA, USA) 155
Synthesis and characterization of a pillared clay membrane
S. Vercauteren (Wilrijk, Belgium), J. Luyten, R. Leysen (Mol, Belgium) and E.F. Vansant (Wilrijk, Belgium) 161

Meetings calendar 169

On the role of gravitational convection in the transfer enhancement of salt ions in the course of dilute solution electrodialysis
V.I. Zabolotsky, V.V. Nikonenko and N.D. Pismenskaya (Krasnodar, Russian Federation) 171
Transport of sulfuric acid through anion-exchange membrane NEOSEPTA-AFN
Z. Palatý and A. Žáková (Pardubice, Czech Republic) 183
A novel composite chitosan membrane for the separation of alcohol–water mixtures
X.-P. Wang, Z.-Q. Shen, F.-Y. Zhang and Y.-F. Zhang (Hangzhou, PR China) 191
Parameters influencing transport across conducting electroactive polymer membranes
H. Zhao, W.E. Price, C.O. Too, G.G. Wallace and D. Zhou (Wollongong, Australia) 199

A comparative study on chromophore diffusion inside porous filters by pulsed photoacoustic spectroscopy
G. Puccetti and R.M. Leblanc (Miami, FL, USA) 213
Pervaporation of a model apple juice aroma solution: comparison of membrane performance
J. Börjesson, H.O.E. Karlsson and G. Trägårdh (Lund, Sweden) 229
Biofunctional membranes: an EPR study of active site structure and stability of papain non-covalently immobilized on the surface of modified poly(ether)sulfone membranes through the avidin–biotin linkage
A. Bhardwaj, J. Lee, K. Glauner, S. Ganapathi, D. Bhattacharyya and D.A. Butterfield (Lexington, KY, USA) 241
Effect of solution chemistry on the surface charge of polymeric reverse osmosis and nanofiltration membranes
A.E. Childress and M. Elimelech (Los Angeles, CA, USA) 253
Membrane fouling during microfiltration of protein mixtures
C. Güell and R.H. Davis (Boulder, CO, USA) 269
Facilitated transport of boric acid by 1,3-diols through supported liquid membranes
N. Bachelier, C. Chappey, D. Langevin, M. Métayer and J.-F. Verchère (Mont-Saint-Aignan, France) 285
Heat transfer in pervaporation
H.O.E. Karlsson and G. Trägårdh (Lund, Sweden) 295
